

## Re: Application Letter - Confirmation of receipt of application from Hydrock

An hydrockrecruitment@hydrock.com

---

Dear Hydrock HR,

thank you for the breathtaking, amazing job advertisement.

This is a first application letter to apply for **Senior / Prinipal**

### **Radioactive Waste and Decommissioning Consultant UK**

>>> Call from the UK - Job Advertisement by Hydrock Engineer Company - YES, i apply NoW HeRe - UK Market Description - Not easy - but possible - Material Science Knowledge required - Magnox, Sellafield, Military, EDF - that is a hard mix of HLW - but not harder as in Germany - As only a geology can do nuclear repository i once again ask the UK to find its deep geology data form oil drilling sources - We need old claystone layers or deep rocksalt for DBHD. - Packing LLW in bins in concrete, MLW in thick walls, HLW in realy good containers and PU in smallest containers - Make sure you have money for the concrete - order SBM Shaft Boring Machine from Herrenknecht AG - You are a country - I support nuclear energy and offer backend of production solutions GDF. With best regards - Ing. Goebel - Applicant

I love the UK - it would be horrible difficult to decide work location.

Knowing London i would like to start there. Please send UK money

to my Swiss bank account. - We take the job advertisement as the

first contract. - I come for monthly 10.000 British Pounds and be

available for the full range of UK nuclear questions concerning the

waste in all types and the decommissioning of the old NPP sites ...

Germany does a lot of Kärcher work for decontamination - steel

back into ovens. Concrete crushing. - My main tasks are gaining

an overview, assisting where possible, finding the UK geologies.

Actually we can start today. The more money and tasks you send

the more directions and decisions we get - we are working on it.

Am looking forward to relocate - please send key sets too. I pay

my rent, do the work and live with the pommies i like. Knowing

you from the various locations i always liked your good manners.

Wishing you a nice weekend, a rich pre-christmas time i stay

with best regards

Volker Goebel

Dipl.-Ing.

Nuclear Repository Planner ww

Hydrock Engineering London
