

Lagoon Cruiser for rent " 3 hours - for 80 NZD"

You pay, if you destory boat Do not hit the corals!

We wish you a nice day.

Rescue action by Bishop boats would cost you a fortune ...

KIA ORANA – Hello Mr. Teina Bishop - hello Ms. Bishop,

My name is Archi – your new operator at Aitutaki Village working under Robins & Janes advice and control there.

Its an old dream of me to build a concrete and styrofoam boat, a slow barge, to transport, to enjoy and to explore.

I see Aitutaki Lagoon and the guests of Aitutaki village as the ideal South Pacific boat environment and customers.

The boat is powered by the sun -6x photovoltaic power to operate 2x boat motors each 700 W - no fuel needed.

Clients want to be close to the water, - having individual transport and feeling like Captain Cook in the year 2024.

Giving them a boat – something to do, a certain freedom of shipping over lagoon and doing stop overs at beaches.

Some people will love it – couples might experience new challenges together. – Unforgettable views and moments.

Looking onto my salary, it might take me a potatoe year finance and to build the Solar Boat. Would you consider to become a 50 % Business Partner in this small project?

"You have a lot of experience in Lagoon Boats Business."
I want you as business partner and it will give us a good start as you are business people and bosses that decide.

If you like the idea – give me a sign via Jane please

If the idea is not got for Aitutaki market – tell me ...

Working 6 hours a week on the casting form i am visible for the guests and can answer questions how to spend a wonderful day and where to find what ...

The boat gives me a constant parking and a standing in the local community. – Put a little trust on Archi please.

Best regards from

AITUTAKI VILLAGE

Archi

Operations - 'Guest Relations' — Receptionist

Volker Goebel – Dipl.-Ing. Arch. – Ex Germany

You get precalculation of our investment You get monthly report and payments

We have a nice chance to set a good example

Big start invest – but no fuel bill over 10 yrs.

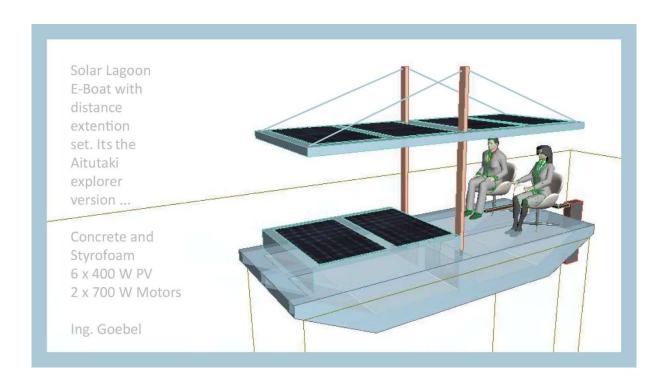

Lets see if the Solar Boat gives the people

a smile on their faces coming back form a
journey on the best looking lagoon ww.

TEINA – are we building a boat together?
You are welcome any time for a cold beer.

Its your kingdom – and i Archi work for you
